

Two of the **best in Dermatology** have joined to better serve your needs.

KATZ DERMATOLOGY

To Our Valued Patients,

For the past 45 years, Katz Dermatology has been providing dermatologic care as an independent practice. We have been honored that you have entrusted us with your care. Unfortunately, times have changed. The increased governmental regulations, insurance regulations and administrative burdens have made it very difficult for small practices to remain self-reliant.

It is for this reason, that Katz Dermatology is pleased to announce that it is partnering with a larger local dermatology group. Effective September 1, 2017, we will become an affiliate of Anne Arundel Dermatology. We are one of a number of prominent, very well respected local dermatology practices that have partnered with Anne Arundel Dermatology. This partnership will relieve us of these regulatory and administrative burdens, while allowing us to continue to provide the same high quality, experienced and personal care you have come to expect from us. Nothing else about our practice will change. Our location, phone number, providers, office staff and services will be unchanged. There will be a transition period of new registration and the implementation of electronic medical records. We sincerely appreciate your patience as we adopt this new computer and software system.

We are very excited about our new partnership and we look forward, as always, to providing you with excellent, experienced and personal care.

Sincerely,

Dr. Matthew Katz
